FLEXIBILITY

# Industrial Washing Machines

**Special  
Purpose**

100%  
FLEXIBILITY

## Introduction

**Industrial Washing Machines Ltd, have long been established as a leading designer and manufacturer of high quality washing equipment, covering all industries, worldwide.**

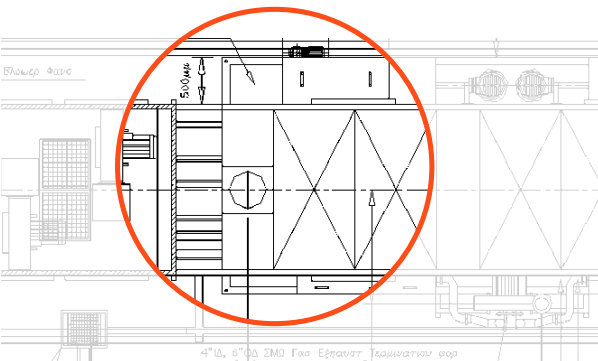

We are forever expanding and developing with the changing demands for specific washing requirements of our customers. With many years experience specialising in the provision of washing and drying equipment, IWM innovative design continues to provide solutions to a wide range of problems.

As an addition to our standard range of models. IWM can tailor these designs to suit variations to items being washed and/or offer a complete bespoke design service. IWM have successfully satisfied washing and/or drying projects for every industry, from food to pharmaceutical, from automotive to nuclear.

We welcome you to visit our demonstration area available for customer trials.
