

INDUSTRIAL WASHING MACHINES

T200 Conveyorised Tray Washing Machine

The most compact traywasher IWM has to offer, the T200 is a single lane continuous wash machine ideally suited for low or intermittent throughputs, or where operational space is minimal. The T200 can accommodate 50 – 200 trays, crates or boxes per hour, with a maximum size of 600 mm wide x 400 mm high.

Overhead feed for one-man operation or continuous 'straight through' tunnel options available.

Benefits:

- > Hygienic design complies with all UK and EU standards, and all are CE assessed and certified
- > Cost efficient, dependable and effective tray washing capabilities
- > Compact footprint where space is at a premium
- > Robust, streamline design with excellent access to all areas for ease of maintenance and cleaning
- > Fully assembled and tested prior to dispatch
